

VAN SCHACK AND BOPP INDICTED FOR CONSPIRACY

For First Time in History of United States Consular Officials of Foreign Country Are Haled Into Court.

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Washington, Feb. 8.—Weeks of investigation by agents of the department of justice resulted in the voting of indictments today by a federal grand jury against prominent figures in what are considered here to be two of the boldest plots involving questions of American neutrality that have been uncovered since the European war began.

Among those against whom indictments were voted, according to a message received here, are Franz Bopp, German consul general; Baron E. H. von Schack, vice consul of Germany; and Maurice Hall, the Turkish consul general.

Consular officers do not enjoy the diplomatic immunities which ambassadors, ministers and attaches are given by international law, but are subject to the jurisdiction of the country in which they are resident and may be treated by the law as are any other persons. The indictments voted today, however, are the first which the American government has attempted to secure against any foreign representatives. This fact was taken to mean that hereafter the administration means to prosecute any offender against American neutrality.

Boys and von Schack are charged with complicity in the plot which was first uncovered several weeks ago with the arrest of C. C. Crowley, alleged to be a pro-German agent who had undertaken to cripple the American output of munitions of war and in other ways to help the cause of the Teutonic allies. Bopp is accused of being the head of a conspiracy which hoped to accomplish this end by interfering with trade in munitions and preventing railway shipments by blowing up two tunnels on Canadian roads.

Sherman Law Involved.
The German officials are being proceeded against under the Sherman anti-trust act in connection with their alleged activities against American plants and under a section of the penal code aimed at sitting on foot of military expeditions against a friendly nation in connection with plans to blow up Canadian railway tunnels.

The indictment of the Turkish consul general was voted in connection with the use of the steamer Sacramento to supply German ships of war in the south Pacific, which ended in the internment of that vessel by the Chilean government many months ago. According to officials here the Sacramento case is one of the clearest that has come to their notice of the use of an American port as a base of supplies for belligerent warships and of false clearance papers to get the supply ship passed by the customs authorities.

SHARP EARTH SHOCKS IN PANAMA CANAL ZONE

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Panama, Feb. 8.—Three sharp earthquake shocks occurred between 11 and 11:45 o'clock today. The whole city and canal zone were shaken. The disturbance was most severely felt in the new administration building, several of the clerks running out of the structure in alarm. No damage to the canal locks or dams is reported.

The recording instruments showed that the earthquake had its center in the vicinity of Los Santos province, where most of the earthquakes originate.

All Aliens Must Register.

London, Feb. 8 (8:20 p. m.).—The British government has issued a new order making it compulsory for all aliens throughout the United Kingdom, whether enemy or friendly, to register with the police. Heretofore friendly aliens were required to register only in prohibited areas.

An Unfailing Way To Banish Hairs

(Beauty Notes)
Ugly hairy growths can be removed in the privacy of your own home if you get a small original package of dolomite and mix into a paste enough of the powder and water to cover the hairy surface. This should be left on the skin about 2 minutes, then removed and the skin washed and every trace of hair will have vanished. No harm or inconvenience can result from this treatment, but be sure you buy real dolomite.

Sure Way to Get Rid of Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This dissolves it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.
By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

WHEAT PRICES SURPRISE WEST; EUROPE BUYING

Question Now Is if Supplies in Canada and United States Will Meet Demands of Foreign and Home Consumption

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL) Chicago, Feb. 8.—Bankers and others whose business requires constant telegraphic communication with Europe say they have suffered no unusual inconvenience of late, though several cables have been put out of business.

Communication with Europe by cable has been unsatisfactory ever since the outbreak of the war. It is claimed that the British have intercepted dispatches between merchants and bankers and have given the benefit of the information to their own business men. This charge has been a subject of correspondence between the two governments.

Persons interested show a good deal of irritation and some assert that our state department is predisposed in favor of the British in any question between that country and Germany.

Wheat Situation.
It has been a surprise to many that the price of wheat has held up so well in the face of the government estimates of crop. When wheat moved well above \$1.30 there were many who said this was a mere speculative rise, but the higher prices have been well maintained. This has disclosed the fact that foreign countries are buying freely from us.

Argentina, Australia and India have perhaps a total of 275,000,000 bushels of wheat for export, and naturally the British would prefer to buy from their own colonies, but those parts of the world are not well supplied with ships. If, as is threatened, the Germans institute a system of raiding the oceans and thus cut communication between our ports and those of Europe, or impair the service seriously, our grain markets will suffer correspondingly.

Way Out for Consumers.
It is still a question whether the supply of grain in the United States and Canada will be sufficient for home uses and the requirements of Europe. A way out is always found, however. Consumers may be satisfied with low grade, or no grade, if they can get good grain. Moreover, the supplies of Argentina, Australia and India will not be left untouched, even with inadequate shipping facilities, if the need becomes great.

These high prices for grain are a curiosity to many of the old hands. Dollar wheat was the talk a few years ago, with corn worth half that price and now we have the former 30 per cent up and the latter 50 to 60 per cent above the old price. This in spite of extraordinary efforts put forth by the farmers to raise grain under the stimulus of the phenomenal figures of last year.

The oat crop of over 1,500,000 bushels is rapidly disappearing. Other countries have dipped into our crop, but also our own farmers have used this grain liberally. Farm animals have increased latterly, and a shortage in corn in some districts has necessitated the importation into those districts of oats.

The business stability of the country in months to come depends much on the outcome of this year's crop. The weather in the west has been unfavorable to the winter wheat crop of the time, but a blanket of snow is coming on. Farmers are more prosperous than ever before, and on them will the country depend largely for its power to meet adversity in the future.

BERLIN EXPLANATION OF ARTEMIS AFFAIR

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Amsterdam, Feb. 8 (via London, Feb. 8, 2:04 p. m.).—A semi-official statement from Berlin says that the Dutch motor vessel Artemis was torpedoed because the German commander believed that she was resisting inspection. The statement follows: "During the night of February 1 and 2, the Artemis was attacked by a German torpedo boat and damaged by a torpedo. The ship was able to reach port in a damaged condition. According to all available information the commander of the German torpedo boat believed that the Artemis was resisting his order for inspection and attacked the ship. The inquiry into this affair, as a result of which a neutral vessel, much to our regret, came to grief, has not been concluded."

RUSSIANS AGAIN ARE ATTACKING IN GALICIA

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Berlin, Feb. 8 (via Vienna, Feb. 8, 2:04 p. m.).—The Russians are again on the aggressive in Galicia, according to today's statement by Austro-Hungarian army headquarters, transmitted here. In an attack on an Austro-Hungarian advance infantry position northwest of Tarnopol, the Russians temporarily succeeded in entering the point attacked, according to the statement, but were shortly afterwards ejected.

32 INDICTMENTS AGAINST GERMAN AGENTS RETURNED

Among Men in Grip of Law for Violating Neutrality Included Consul General Bopp at Frisco.

(BY MORNING JOURNAL SPECIAL LEASED WIRE) San Francisco, Feb. 8.—News from Washington of the voted indictments of consular officials here of the German government anticipated by at least two days the prospect of a report from the federal grand jury. Officials admitted, in the light of dispatches, that among those against whom indictments have been voted were the following:

Consular Officials Indicted.

Franz Bopp, consul general for Germany.
Baron E. H. von Schack, vice consul general for Germany.
Henry W. E. Kauffmann, chancellor of the German consulate.
Maurice H. Hall, consul general for Turkey.

Fred. Jensen, former owner of the steamer Mazatlan.
Johannes H. Van Koolbergen, alleged agent of the German consulate.
Dr. Simon Reimer, said to be a German navy officer.

"Frederick Williams," thought to be a fictitious name.

There were in all thirty-two indictments voted charging violations of neutrality. Five of these having to do with bomb plotting include the names of Bopp and von Schack.

Other Indictments Expected.
There will be returned Thursday in all it was said by John W. Preston, United States district attorney, fifty-nine indictments. Twenty-seven of these, it was said, were against immigration inspectors and officials, officers of steamers and Chinese in connection with the smuggling of Chinese.

The other three bomb plot indictments are new charges of bomb plotting against Baron George Wilhelm von Brincken, an attaché of the German consulate; C. C. Crowley, a detective, and Mrs. Margaret Cornell, an investigator who with Crowley was employed by Bopp, according to the charges. These persons already are under indictment, charged with conspiring to destroy commerce and to use the mails to incite to murder, arson and assassination.

It was said by Mr. Preston tonight that the new indictment charges have been supplemented by those voted against Bopp and von Schack of violation of the Sherman anti-trust law and conspiring to send a military expedition from the United States.

It is alleged by the government that agents of the German consulate operated in Canada in the destruction of tunnels and bridges to such an extent that their operations would come under the head of those of a military expedition. Van Koolbergen is said to be one of those agents.

DUTCH BATTERY BRINGS DOWN ZEPPELIN RAIDER

(BY MORNING JOURNAL SPECIAL LEASED WIRE) The Hague, Feb. 8 (via London, 4:20 p. m.).—Official reports received here regarding the Zeppelin L-19 believed lost in the North sea indicate that it was the Dutch battery on the island of Ameland that damaged the airship.

The reports state that the Zeppelin, coming from the sea, entered the coast line of Holland and the chain of islands to the northeast. The airship was repeatedly fired upon by coast batteries and warships. It was the battery on the island of Ameland, which apparently hit the Zeppelin, with what effect is uncertain, the Zeppelin immediately afterward vanishing in the fog.

It is understood the Ameland battery consists of ordinary field pieces adapted to anti-aircraft purposes.

ALLEGED MURDERER FAILS TO KILL SELF

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Tulsa, Okla., Feb. 8.—Twelve hours after he was found hanging from a cell in the county jail here and pronounced dead, Thomas Murphy, revived today in an undertaker's shop. Tonight physicians said he has an excellent chance to survive and stand trial on a charge of first degree murder which caused his incarceration.

Murphy was found hanging from the ceiling of his room last night, an improvised rope twisted so tightly about his neck that officials ordered the body prepared for burial.

GENERAL VILLA STILL NEAR CHIHUAHUA CITY

(BY MORNING JOURNAL SPECIAL LEASED WIRE) El Paso, Tex., Feb. 8.—Officials in Juarez, across the border from here, were silent today and tonight as to news from western Chihuahua upon the pursuit of Gen. Francisco Villa.

General Villa said during the day that his forces were making progress and that Villa had not left the Santa Clara ranch district, as previously reported. Tonight he added that he looked for important developments in the next few days in the progress of the pursuit.

CAN'T FIND DANDRUFF

Every bit of dandruff disappears after one or two applications of Danderrin rubbed well into the scalp with the finger tips. Get a 25-cent bottle of Danderrin at any drug store and save your hair. After a few applications you can't find a particle of dandruff or any falling hair, and the scalp will never itch.

IRISH MEETING TO DECLARE FOR TEUTON CAUSE

Convention Is Called to Meet in New York City; England Is Severely Censured in Proclamation.

(BY MORNING JOURNAL SPECIAL LEASED WIRE) New York, Feb. 8.—A call for a national convention of "Men and Women of the Irish Race in America" to "make known to the world that Ireland has not been and cannot be absorbed into England," was issued here today over the signature of 500 men of Irish lineage, of prominence in different parts of the country. The convention is to be held in this city, March 1 and 2.

Among the signers are Victor Herbert, president of the Friendly Sons of St. Patrick; Joseph McLaughlin, national president of the Ancient Order of Hibernians; T. St. John Gaffney, former United States consul at Munich; the Rev. John Cavanaugh, president of Notre Dame university; Right Rev. Monsignor Philip R. McDevitt, Philadelphia; Judge Jeremiah J. Lynch, Putte, Montana; Rev. P. C. York, San Francisco; and the Rev. Timothy Dempsey, St. Louis.

The announcement declares that Ireland looks forward with hope and confidence to the complete breakdown of British misrule as the certain outcome of the present war.

"England, with her allies," it declares, "in spite of her boasted supremacy in numbers, in wealth and in territory, has been defeated in every contest where skill and courage and strength have been the weapons, and has kept her cause afloat with the neutral world only because of the censorship and cable control through which her favorite weapons of calumny and falsehood have been welded with the dexterity and success which ripe experience and inherited tendency have given her."

GERMAN FORCES STILL ABLE TO MEET ENEMIES

(BY MORNING JOURNAL SPECIAL LEASED WIRE) London, Feb. 9.—The Times' military expert today devotes nearly three columns to an estimate of the German losses during the war. With due allowances for many considerations which tend to make such estimates to a large extent guesswork, the correspondent believes that during the eighteen months of war Germany has lost about 2,500,000 men.

It is estimated by the writer that Germany now has 2,500,000 men in the field and that she had about 2,000,000 men available at the beginning of the war. This, he says, would leave her a reserve of 2,700,000 men, many of whom are needed for irregular duty.

The expert thus reaches the conclusion that Germany still has available for fighting a reserve of 2,000,000 men and says that until these are exhausted the strength of her armies in the field will not begin to fail her. The correspondent makes his article the text for a renewal of his urging that the entire allies give up as far as possible what he terms petty campaigns in far-off fields and concentrate against Germany.

SANTA FE TRAIN IS DERAILED 12 MILES WEST OF FLAGSTAFF

(SPECIAL DISPATCH TO MORNING JOURNAL) Flagstaff, Ariz., Feb. 8.—Santa Fe train No. 7 was derailed at Bellemont, twelve miles west of here, this evening, at 8:40 o'clock. The engine and the two front cars remained on the rails, but the five rear cars bumped the ties for fifteen car lengths.

The train was running at a speed of about forty miles an hour at the time of the accident, but fortunately all cars remained upright and no injuries were sustained by the passengers. The passengers were picked up by No. 3 and taken to Williams. A broken rail is supposed to have been the cause of the accident. A wrecking crew was sent out from Winslow to clear the track and there will be no serious interruption of traffic.

HEALTHIER IN TRENCHES THAN IN BARRACKS

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Paris, Feb. 8 (6:50 p. m.).—Life in the trenches is healthier for the French soldiers now than in barracks during peace times, as shown by the official figures issued today by the army medical department.

The cases of measles, scarletina, mumps, diphtheria and cerebro-spinal meningitis were more numerous in the army during the year 1911 than in 1913. These diseases, together with typhoid and dysentery, averaged 7.1 per thousand men in 1911, as compared with 6.92 per thousand men last year. Although the total was lower, typhoid and dysentery were somewhat more prevalent. Typhoid cases last year numbered 4.4 per thousand men as compared with 1.88 in 1911. Dysentery, formerly the deadly enemy of armies in the field, attacked only eighteen men out of 100,000 as compared with eleven in 100,000 before the war. The mortality was twelve for each 100 cases of typhoid in 1911; in the field mortality was 2.55 per cent, owing to improved methods of treatment.

TO THE WIFE OF ONE WHO DRINKS

I have an important confidential message for you. It will come in a plain envelope. How to conquer the liquor habit in 3 days and make home happy. Wonderful, safe, reliable, inexpensive method, guaranteed. Write to Edward J. Woods, 1392 4th Station E. New York, N. Y. Show this to others.

RAILROAD LOBBY SEVERELY SCORED BY JUDGE MOON

Chairman of House Postoffice Committee Declares Congress Is Besieged by Unscrupulous Agents.

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Washington, Feb. 8.—The charge that the greatest lobby ever known to the American people, is seeking to prevent the substitution of the space for the eight payment system in the railway postal service, was made in the house today by Chairman Moon of the postoffice committee, in presenting the annual postoffice appropriation bill. He declared the real object of the opposition was to throttle the parcels post service in the interest of express companies, whose profits are shared by the companies and the railroads.

Scores Guaranty Companies.
In urging the establishment of a government guaranty fund, proposed in the bill, the chairman asserted that a combination of surety companies had so manipulated their bonding of government employees, as to cause the government to lose "hundreds of thousands of dollars."

Sixteen hours have been set aside for general debate on the measure, which carries appropriations aggregating about \$320,000,000. Its introduction followed the publication in local newspapers of a letter to Speaker Clark from Ralph Peters, chairman of the railway mail committee, alleging that unfair tactics were being used by the postoffice committee in an effort to pass the space payments plan.

Mr. Moon told the committee that the weight system the railroads now are receiving \$60,000,000 annually for carrying mails and that \$40,000,000 would be allowed them by the proposed space plan. They seek not only an increased rate, he added, but want the weight system retained, but the Interstate Commerce commission given the right to grant them higher rates if it sees fit.

"They have the greatest lobby at work today ever known to the American people," he declared. "Since this bill was passed in the house of representatives (last session) and did not pass the senate, although concurred in by the senate conference committee, there never has been such a propaganda promulgated among a civilized people against a government as these railroads have carried on against this measure. There has been a falsification of every fact that is material for consideration. They have not presented a single fact in justification of the charge that this law cannot be changed—not a single one."

GERMAN PEOPLE ARE ANXIOUS TO END WAR

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Copenhagen (via London, Feb. 8, 8:25 p. m.).—The famous Norwegian historian, Dr. Halvdan Koht, who is pro-German in his sympathies after his prolonged stay in Germany, is contributing a series of articles to the Christiania newspaper, Social Demokraten.

Dr. Koht, in these articles, asserts that the entire German nation is yearning for peace. This feeling, he says, arises not from weakness, for everybody is convinced that Germany is safe, but because the country has arrived at the conclusion that Germany's enemies, especially Great Britain, cannot be crushed.

"The fact that Great Britain still retains all her territory and cannot be attacked by land and that she is less affected by the war than Germany," the writer adds, "is rapidly growing upon the whole people, who are beginning to realize that in spite of her military strength, Germany never will be able to enforce a definite decision in her favor."

TAILORS DECIDE HOW MEN ARE TO DRESS

(BY MORNING JOURNAL SPECIAL LEASED WIRE) St. Louis, Mo., Feb. 8.—Frock coats of green cloth with wide red stripes, and extreme models in evening dress, including a wine-colored coat with a lavender vest to go with it, are among the fashions for men's wear this spring exhibited at the convention of the National Association of Merchant Tailors that opened here today. Patterns in large checks are prominent among the displays. Green is a prominent color.

Single-breasted, two-button sack coats with drapery over the hips are shown. Double-breasted coats are to have peak lapels. Extensive padding will be avoided.

MORMON CHURCH OUT IN UNUSUAL WARNING

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Salt Lake City, Utah, Feb. 8.—The first presidency of the Mormon church issued a formal warning today advising all persons to keep out of the mountain canyons on account of the unusually heavy snowfall and the consequent dangers from avalanches. Such warnings by the officers of the church were common in the early days of Utah, but it is said this is the first of the kind that has been issued for fifty years. More snow is in the mountains than for many years past.

NOTED VETERAN OF TWO WARS IS DEAD

(BY MORNING JOURNAL SPECIAL LEASED WIRE) New York, Feb. 8.—Major Frederick H. E. Elstein, U. S. A., retired, veteran of the civil and Spanish-American wars, and of Indian fighting and regarded as an authority on the ethnology of the Indian race, died at his home in Brooklyn today, aged 69 years.

Major Elstein's experiences with Indians led to his appointment as Indian agent in Arizona in 1879. In 1872 the government placed him in charge of a Washington territory and, the ownership of which was a question of dispute between the United States and Great Britain. The emperor of Germany as arbiter decided in favor of the United States and Major Elstein continued in care of the Indian until the British evacuated.

Returning to Indian fighting, Major Elstein engaged with Gen. Nelson A. Miles in operating in Oregon, South Dakota and Idaho.

NO ELECTION IN CANADA UNTIL WAR IS ENDED

Sir Wilfred Laurier, Opposition Leader, Joins With Government in Proposal to Eliminate Party Matters.

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Ottawa, Ont., Feb. 8.—The Canadian house of commons today passed an address to the British parliament asking that the British North America act which is the constitution of Canada be amended to extend the term of the present Dominion parliament for one year.

In proposing the resolution, Premier Borden said it was evident the Canadian people were opposed to a general election during the war, but unless the term of parliament were extended as he proposed, an election would be necessary this year.

From all the information he had been able to obtain the premier said he did not believe "we are more than half way through with the present time."

The opposition leader, Sir Wilfred Laurier, in a speech which was applauded by both his followers and his opponents asserted that while Belgium was overrun with Germans, while France had not recovered her lost territory, while the future security of England was not assured, and while the Germans had not been driven beyond the Rhine, Canada should give nothing all the men and money of which she was capable. He agreed to the passage of the address and it was carried an hour after its introduction.

GLASS OF WATER BEFORE YOU EAT ANY BREAKFAST

Wash Poison From System Each Morning and Feel Fresh as a Daisy.

Every day you clean the house you live in to get rid of the dust and dirt which collected through the previous day. Your body, the house you soul lives in, also becomes filled up each twenty-four hours with all manner of filth and poison. If only every man and woman could realize the wonders of drinking phosphated hot water, what a gratifying change would take place.

Instead of the thousands of sickly, anemic-looking men, women and girls with pasty or sallow complexions; instead of the multitudes of "nervous wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere.

Everyone, whether sick or well, should drink each morning before breakfast a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to such headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle, but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.

NOSE CLOGGED FROM A COLD OR CATARRH

Apply Cream in Nostrils To Open Up Air Passages.

Ah! What relief! Your clogged nostrils open right up, the air passages of your head are clear and you can breathe freely. No more yawning, snuffing, mucous discharge, headache, dizziness—no struggling for breath at night, your cold or catarrh is gone. Don't stay stuffed up! Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, giving you instant relief. Ely's Cream Balm is just what every cold and catarrh sufferer has been seeking. It's just splendid!
